## FIRST LADY MICHELLE OBAMA

I am thrilled to present the 2015 Healthy Lunchtime Challenge Cookbook, and I am so excited for you to try the delicious recipes from our young chefs.

Since we launched this challenge four years ago, kids from across our country have showcased their culinary talents and submitted creative recipes. My team and I always have such fun sampling these scrumptious, healthy meals, and it is never easy to select our favorites. From this year's nearly 1,000 entries, we chose 55 winners – one from each U.S. state, four territories, and the District of Columbia – to highlight in this cookbook and invite to attend the annual Kids' State Dinner at the White House.

One of the best parts about this collection of recipes is that you can make each and every one in your kitchen at home. I encourage you – with the help of your family and friends – to pick out a recipe, find fresh ingredients in your local community, and prepare a tasty dish together.

Congratulations to our amazing kid chefs, and I wish you all the very best.

*Michelle Obama*

### **Kids Cook...and Learn!**

Ingenuity. Enthusiasm. Talent. Those are only some of the ingredients demonstrated by the junior chefs from all across the United States entering the fourth annual Healthy Lunchtime Challenge.

WGBH is pleased to salute the young cooks who share their winning culinary creations in these pages. And we're delighted for WGBH to be at the table in support of kids and their families, and in partnership with First Lady Michelle Obama, the U.S. Department of Education, and the U.S. Department of Agriculture.

We are especially grateful to Newman's Own for providing the support to make this opportunity possible, and to children's healthy eating expert Tanya Steel, who has been involved with the Healthy Lunchtime Challenge since its inception. Our thanks also to Delta Air Lines for providing transportation for the winners; to the Westin Georgetown for hosting the families in D.C.; and to D.C. Central Kitchen for cooking the finalist recipes for the judging event.

Whether it's learning about numbers and letters, how to express feelings, or the keys to healthy eating, in our media-hungry world, WGBH—PBS's leading producer for TV, the Web, and mobile—assures that young people don't fill up on empty calories. As the station that brought Julia Child and her recipes to television, this is a mission dear to our hearts. Bon appétit!

# RECIPES

# Alabama Fancy Fish Tacos

Makes 4 Servings • 393 calories • 5g fat • 56g carbohydrates • 33g protein

## INGREDIENTS

4 fresh or frozen tilapia fillets  
Salt to taste  
1 cup quinoa, rinsed  
1 large carrot, peeled and thinly sliced  
1 large cucumber, thinly sliced  
½ cup red cabbage  
1 cup broccoli, chopped  
¼ cup fresh cilantro  
Juice of 1 lime  
4 whole-wheat tortillas or wraps

## PREPARATION

- 1. Preheat the oven to 350°F.** On a large baking sheet, place the tilapia, and add salt to taste (if frozen, defrost the fish first). Bake for 25 minutes, or until the fish flakes easily with a fork.
- 2. Meanwhile, in a medium pot,** bring 2 cups of water and the quinoa to a boil over medium heat; reduce heat to low and cook for about 20 minutes, or until tender.
- 3. In a large bowl,** combine the vegetables and cilantro. When the fish is done, squeeze lime juice over each fillet. Fill each whole-wheat tortilla with fish and about ¼ cup vegetables. Roll up and serve.

*Chef Jay Wolanzyk,  
Age 10*

“I wanted to make something healthy that gave me energy to play sports,” says Jay. “I play outside a lot after school or I have a ballgame and I wanted something good to fill me up. I’m kind of a picky eater, but I love fish and I knew I wanted it to be the main ingredient. My mom adds vegetables in food that I may not see, so I like these better because they are different colors and I can tell which ones I’m eating!”

*Alabama*

*Chef Sable Scotton,  
Age 10*

“I really like vegetables. In the summer, I wander through the garden eating peas, carrots, broccoli, and even flowers like nasturtiums,” says Sable. “I also love to fish for wild salmon and other types of whitefish with my family, so this recipe brings together my two favorite worlds. This recipe is for one of my favorite foods because it is so delicious and healthy. It uses wild salmon that we harvest from the Yukon River and then jar ourselves. However, any species of canned salmon can be used.”

## INGREDIENTS

- 2 cups chopped cauliflower
- 2 cups chopped broccoli
- 2 carrots, peeled and thinly sliced
- 1 cup snap peas
- 2 cups rainbow chard leaves, cut into 1-inch strips
- 1 garlic clove, peeled and minced

- 3 cups cooked brown rice

## PREPARATION

- 1. Preheat the oven to 350°F.** In large bowl, combine cauliflower, broccoli, carrots, snap peas, rainbow chard, garlic, avocado or olive oil, pepper, and salt. Place in a 13- by 9-inch baking pan and bake for about 20 minutes, or until the veggies are just soft.

# Oodles of Zoodles with Avocado Pistachio Pesto

Makes 5 Servings • 310 calories • 31g fat • 8g carbohydrates • 3g protein

## INGREDIENTS

### For the Pesto:

1 ripe avocado  
1 packed cup fresh basil  
1 packed cup fresh cilantro  
1 jalapeño, ribs and seeds removed  
2 garlic cloves, peeled  
Juice of 1 lime  
½ cup olive oil  
1 teaspoon salt, or to taste  
½ cup pistachios

### For the Zoodles:

4 zucchinis, peeled  
2 cups cherry tomatoes, halved  
2 cups peeled, shredded carrots  
½ medium red onion, peeled  
and thinly sliced

## PREPARATION

- To make the Pesto:** In a blender or food processor, blend 1 cup water with all the pesto ingredients, except the pistachios, until incorporated. Add the pistachios and blend until mostly smooth. Taste and adjust seasoning if needed. Set aside.
- To make the Zoodles:** Use a grater, peeler, mandoline slicer, or spiralizer to turn the zucchini into zoodles. (I used a spiralizer to get the noodle A.K.A. zoodle shape.) In a large bowl, mix the zoodles with the tomatoes, carrots, and red onion. Arrange the salad in bowls. Top with the pesto and serve.

*Chef Nia Thomas,  
Age 10*

“I am not a big fan of cooked zucchini, but when my sister made zucchini noodles one day with a tomato sauce, I loved it,” says Nia. “So, I started experimenting and came up with a very delicious pesto sauce by using lots of flavors that I love, like avocado, spinach, and pistachios. It turned out so delicious and when I made it for dinner for my family, they loved it. It is crunchy fresh, and the sauce is just awesome.”

# Arkansas Baked Almond Catfish

Makes 6 Servings • 273 calories • 11g fat • 16g carbohydrates • 28g protein

## INGREDIENTS

2 pounds catfish fillets  
½ cup low-fat milk  
1 large egg  
1 teaspoon salt  
¼ teaspoon black pepper  
1 cup breadcrumbs or panko  
(Japanese breadcrumbs)  
½ cup sliced almonds  
¼ onion, peeled and minced  
1 tablespoon unsalted butter, melted

## PREPARATION

- 1. Preheat the oven to 500°F.** Cut the catfish fillets roughly in half, so you have enough to feed 6 people evenly. Lightly grease a large baking sheet.
- 2. In a medium bowl,** whisk together the milk, egg, salt, and pepper. In a separate bowl, combine the breadcrumbs, almonds, and onion.
- 3. Dip the fish pieces in the milk and egg mixture,** then dredge them in the breadcrumb mixture, making sure they are evenly coated on both sides. Place the fish pieces on the baking sheet, drizzle with the melted butter and bake for 15 minutes, or until the fish flakes easily with a fork.

*Chef Aspen Smith,  
Age 11*

“My family loves catfish, especially fried, but my dad and other family members have heart problems,” says Aspen. “I wanted something that was healthier for all of us to enjoy. I love to cook and bake and this is really healthy, good, and easy to prepare. I watch cooking shows all the time and put a few ideas together in this recipe. I love it and hope you do, too!”

*Arkansas*

*Chef Aria Pelaez,  
Age 9*

“I was inspired to make this recipe because my family makes bland tacos,” says Aria. “I took leftover BBQ pineapple, tomatoes, orange peppers, and red onions and made a taco with them. I added grilled fish and I made a guacamole yogurt sauce to give it a strong taste. This dish makes my mouth water. You rock, Mrs. Michelle Obama!

P.S. This is gluten free! My granddad has Celiac so I try to eat gluten free, too, in his honor.”

# Hannah's Eggy Potato Scramble

Makes 2 Servings • 437 calories • 19g fat • 43g carbohydrates • 25g protein

## INGREDIENTS

2 sweet potatoes  
1 cup Brussels sprouts  
1 garlic clove, peeled and crushed  
1 tablespoon olive oil  
1 teaspoon apple cider vinegar  
Pinch of salt  
Pinch of pepper  
½ cup mushrooms, chopped  
4 large eggs  
2 tablespoons milk  
¼ cup low-fat cheese  
¼ cup whole-wheat breadcrumbs  
¼ cup ham, shredded

- 1. Preheat the oven to 400°F.** Wash and dry the sweet potatoes, place on a large baking sheet, and bake for 40 minutes.
- 2. Meanwhile, in a baking dish,** toss the Brussels sprouts with the garlic, olive oil, apple cider vinegar, salt, and pepper. Add to the oven where the sweet potatoes are baking. After 10 minutes, add the mushrooms, and cook for another 10 minutes, or until the veggies are slightly browned.
- 3. In a small bowl,** whisk together the eggs and milk. Cook in a nonstick pan over medium heat for about 2 minutes, or until the eggs are scrambled.
- 4. When the potatoes and veggies are cooked,** remove from the oven (leave the oven on) and carefully cut the sweet potatoes in half lengthwise, being careful not to rip the skin. Scoop out the sweet potato flesh and place in a medium bowl. Add the Brussels sprouts-mushroom mixture and the scrambled eggs, mix together well, and place into the potato skins. Sprinkle the cheese, breadcrumbs, and shredded ham on top of each potato half. Bake for 5 minutes, or until the cheese has melted.

*Chef Hannah Betts,  
Age 10*

“I came up with my recipe, because I wanted a meal that was filling and healthy, and also included sweet potatoes as I really love them,” says Hannah. “I do gymnastics and swimming, so I need food that is going to fill me up and give me lots of energy. I love to cook and I help my mom out in the kitchen all the time. Even my little brother Daniel (who wants to be president one day) says it is delicious. I hope you enjoy it, too.”

*Chef Emilie Monnig,  
Age 12*

“I was inspired to make this salad because a couple weeks ago my dad made a spinach salad that was really good,” says Emilie. “I decided that I wanted to make my own spinach salad with homemade dressing. I chose spinach because it is a high source of iron, fiber, and vitamin C. I also think kids would like to eat this salad because of its fun colors.”

*Chef Bobby Sena,  
Age 12*

“Last year I wanted to surprise my mom with a gift on Mother's Day, but I didn't have money to buy her anything and my sister didn't want to sing a song with me, so I decided that making something that she would like to eat and that was healthy for her, would be the ideal gift,” says Bobby. “She is from the Dominican Republic and we live in Florida, so I thought why not prepare a dish that is Caribbean and Floridian! She also has high cholesterol, so I had to research the best foods to help reduce cholesterol levels. I thought what better way to honor her culture, our agriculture in Florida, and her good health!”

*Chef Corey Jackson Jr.,  
Age 10*

“Corey and I began creating great gluten-free recipes about five years ago,” says Corey’s mom, Dora. “After Corey was diagnosed with Autism, he was placed on a gluten-free diet. In the early years, we tried every gluten-free recipe we could find. But most were not kid-friendly. So, Corey ate his favorite two foods, chicken and rice, often. As with many autistic people, he was skeptical about any changes, including when it came to his meals. We slowly introduced variations to his two favorite foods, by adding coconut milk and mangoes.”

# East Meets West! Chinese Pot Stickers and Tuscan Salad with Aloha Sorbet

Makes 8 servings • 292 calories • 10g fat • 35g carbohydrates • 18g protein

## INGREDIENTS

### For the Pot Stickers:

1 tablespoon sesame oil  
1 large onion, peeled and chopped  
1 pound ground chicken breast  
1 pound chopped frozen spinach  
3 tablespoons ground flaxseed  
1 large egg  
48 pot sticker wrappers  
1 tablespoon olive oil  
2 tablespoons low-sodium soy sauce

### For the Kale Salad:

1 bunch Tuscan kale, stems removed, leaves torn into bite-sized pieces  
3 garlic cloves, peeled and minced  
Juice of 1 large lemon  
¼ cup olive oil  
¼ cup grated Parmesan cheese  
Salt and pepper to taste

### For the Sorbet:

½ pineapple, peeled and cut, plus 1 slice cut into quarters for garnish  
1 papaya, chopped, plus ½ papaya for serving  
Juice of ½ large lemon  
¼ cup honey

## PREPARATION

- To make the pot stickers:** In a large sauté pan heat the sesame oil over medium-high heat. Add the onion and sauté for 3-4 minutes, or until softened. Add the chicken and cook, breaking the meat up with a wooden spoon, for about 10 minutes, or until cooked through. Squeeze out the excess water in the spinach then add to the pan. Add the flaxseed and egg and cook for another 5 minutes.
- Place a tablespoon of the mixture** on each pot sticker wrapper, fold in half, and seal the edges with water. Gently pleat the sides of the dough round to create a crescent shape.
- In a nonstick frying pan,** heat the olive oil over medium heat. Place a layer of pot stickers in the pan and cook, allowing the bottoms to crisp, for 3 minutes. Add ½ cup of water and steam for another 7 minutes. Repeat with the remaining pot stickers. Serve with a small dish of soy sauce for dipping.
- To make the Kale Salad:** Place the kale in a large bowl. In a small bowl, combine the garlic and lemon juice. Gradually add the olive oil, whisking until combined. Drizzle the dressing on the kale, add the Parmesan cheese, season to taste with salt and pepper, and toss to combine. Serve with the pot stickers.
- To make the Sorbet:** In a juicer or blender, process the ½ pineapple and the papaya (you will net about 2 cups of juice). Add the lemon juice and honey and blend. Add the mixture to an ice cream machine and process according to the manufacturer's instructions (or scoop into muffin tins, cover with plastic wrap, and freeze for 1 hour). Scoop out the soft mixture and freeze until firm, at least 1 hour. Serve a large scoop of sorbet in a papaya half. Garnish with quartered slices of pineapple.

“The recipe I made is a family recipe. It represents my ethnic heritage, both the Italian and Chinese sides,” says Luca. “It also represents my home state of Hawai‘i. I have made this recipe with my mom ever since I was in preschool. My mom says this is my favorite way of eating lots of spinach! The Tuscan Kale Salad is really yummy because of the garlic and the Parmesan cheese.”

My favorite part was pounding out the chicken, because it was fun and it made the chicken tender and juicy,” says Josie. “My baby brother likes the carrot noodles best. I decided to use veggies for the noodles so the meal would be healthier. I would serve this meal with a glass of low-fat milk and a spinach salad to complete my plate.”

*Chef Abigail Horne,  
Age 8*

“My little brother is sensitive to wheat. Whenever we have sandwiches for lunch he always cries for bread, but we are not allowed to give it to him,” says Abigail. “I wanted to come up with a sandwich for him that didn’t have wheat bread and was also affordable. My dad loves fried plantains or tostones. I thought it would be a great idea to use the plantains for bread but bake them instead of frying for a healthier option. I ended up with a turkey burger on plantain buns and a fresh jicama and apple slaw. He loved it!”

“I like to be creative with combinations of ingredients and sauces and try different tastes together to see what goes best,” says Blake. “My first idea for a fun lunch recipe included wontons. My mom and I tried several different combinations and determined we needed a bigger shell. We replaced the wontons with whole-wheat tortillas. I tried various ingredients on the inside and decided on this recipe. Add a side of nectarines or peaches and you have a meal following MyPlate guidelines.”

“My grandma told me about this contest and I thought it would be fun to create a recipe and to have the opportunity to dine with the First Lady at the Kids' “State Dinner,” says Colton. “I read a story about the Native American “Three Sisters.” I liked how the boy in the story came and picked the “Three Sisters” and how the corn supports the beans, and the squash helps support and protect the corn and beans, just like a family. We altered this recipe to match My Plate requirements. I first made this recipe with my grandma at my grandparents' house.”

“My family loves spending time together outdoors camping and fishing. We have lots of fresh produce in our garden and our dad is a really good fisherman,” says Grace. “The best thing about these fabulous fish tacos is they use all the food groups. We use whole-wheat tortillas as a grain, the fruit and vegetables add lots of nutrients, and the Greek yogurt is a great source of calcium. Add the salmon and cook, flipping once, about 5 minutes per side, or until the fish flakes when touched by a fork. Cut each fillet in half.
- 4. Warm** the tortillas in the microwave.
- 5. In a medium bowl,** mash the avocados with a fork. Add the lime juice and salt and continue to mash until you get the desired texture. Stir in the cilantro.
- 6. To assemble,** place 2 small pieces of salmon, and 2 pieces of asparagus inside each warm tortilla. Sprinkle with cheese then top with homemade guacamole. Arrange on a plate with kale chips and blueberries. Enjoy!

“My inspiration for this is also my favorite story. I was at a barbecue while on vacation and set my eyes on my first suckling pig,” says Phoebe. “The sight convinced me to become a vegetarian. After studying with my parents about vegetarianism and how much protein my body needs, I decided that I would eat fish and chicken, but not mammals. Making this choice has forced us to find creative protein options. Fish is both high in protein and the good types of fats we need.”

“I’m just a normal kid, so when my stepmom got breast cancer I was scared. When I found out we were going to change our eating habits to be healthier I was mad,” says Sydney. “But once we started eating healthy, I realized it wasn’t a bad thing at all. I love tacos and I came up with this new version so I could still eat healthy and have my favorite food. In the summer we use vegetables out of our own garden. It tastes even better then.”

“One day I was very hungry after my soccer practice so I was inspired to create a nutritious chicken meal that was easy to prepare,” says Felix. “I decided to make this dish as a wrap because I was thinking about the fun times when my dad wrapped me up as a burrito with a blanket when I was a small child. This recipe is versatile because I can change the chicken for fish, or just make it a salad not using the tortilla. This plate goes perfectly with a nonfat Greek yogurt with berries.”

“I created this soup because it represents my heritage, which is Jewish, Mexican, and Eastern European,” says Clara. “I first made this recipe when my grandmother came to visit from Mexico. She was convinced the ingredients wouldn’t go well together, but the result was delicious. This soup combines vegetable barley soup, common to Jewish cooking, with Mexican pozole. I also really love soup.”

# Pan-Roasted Grouper with Carolina Gold Rice Salad

Makes 8 Servings • 561 calories • 23g fat • 46g carbohydrates • 33g protein

## INGREDIENTS

### For the Rice Salad:

2 cups Carolina Gold rice or wild rice  
10 ounces baby spinach, stems trimmed  
and leaves roughly chopped  
½ red onion, peeled and diced  
1 pint multicolor cherry tomatoes, halved  
3 cups red grapes, halved

### For the Vinaigrette:

½ cup ruby red grapefruit juice  
¼ cup balsamic vinegar  
1 teaspoon yellow miso paste  
2 teaspoons salt  
1 teaspoon pepper  
¾ cup extra-virgin olive oil

### For the Grouper:

4 (4-ounce) grouper fillets or another firm fish  
Salt and pepper to taste  
2 tablespoons canola oil  
1 tablespoon unsalted butter (optional)

## PREPARATION

- 1. In a large stockpot,** bring 12 cups of water to a boil over medium heat. Add the rice, bring back to a boil, then reduce the heat to low and simmer, uncovered, for 30 minutes, or until the rice is tender. Drain the rice in a colander and keep warm.
- 2. Meanwhile, make the Vinaigrette:** In a small bowl, whisk together the grapefruit juice, balsamic vinegar, miso paste, salt, and pepper. Add the oil in a thin stream, whisking until emulsified. Reserve ¼ cup of the vinaigrette.
- 3. Pat the fish fillets dry** with a paper towel and place in a plate or in a shallow dish. Sprinkle both sides of the fish with salt and pepper, and then brush both sides with the reserved vinaigrette. Marinate as you make the salad.
- 4. When the rice is done,** fluff with a fork and transfer to a very large bowl. Add the spinach, red onion, tomatoes, grapes and remaining vinaigrette, and toss.
- 5. To cook the fish:** Heat a heavy 10-inch nonstick or cast-iron skillet over high heat. When the pan is hot, add the canola oil. Place the fillets in the pan (skin side down if you're using fish with skin), laying them down away from your body. Reduce the heat to medium and let sizzle 2 to 3 minutes, or until the fish is golden. Carefully flip the fillets and add butter to pan, if using. Continue cooking until golden all over and cooked through, 1 minute more, depending on the thickness of your fish. Serve ½ a fillet with rice salad.

## Mix It Up Sushi

Makes 8 sushi rolls • 311 calories • 10g fat • 49g carbohydrates • 11g protein

### INGREDIENTS

- 2 cups brown rice
- 1 teaspoon kosher salt
- ¼ cup seasoned rice wine vinegar
- 8 to 10 roasted seaweed papers
- 1 cucumber, peeled, seeded, and cut into long matchsticks
- 1 avocado, peeled, seeded, and cut into thin slices
- 1 large broccoli stem, outer layer peeled and stem cut into small matchsticks
- ¼ small pineapple, peeled, cored, and cut into matchsticks
- ½ small mango, peeled and cut into matchsticks
- 4 ounces softened low-fat cream cheese, cut into large matchsticks
- 8 ounces cooked shrimp, crab, or even imitation crab
- 1 small bundle watercress, washed

### Equipment:

Bamboo sushi mat, covered in plastic

### PREPARATION

- 1. In a large stockpot,** bring 3 quarts of water to a boil. Add the rice and salt and boil, uncovered, for 35 minutes. Remove from the heat and drain the rice in a strainer set in the sink. Return the rice to the pot, place a kitchen towel over the pot opening, and cover with a lid. Let sit for 10 minutes to allow the remaining water and heat to steam the rice and cook it the rest of the way through.
- 2. Turn the warm rice out into a non-metal bowl.** Drizzle the rice wine vinegar over the rice while gently stirring and folding the rice with a wide spoon. Continue stirring until the rice is no longer warm, about 10 minutes.
- 3. On your plastic-covered bamboo sushi mat,** place one seaweed wrapper with the shiny surface facing down. Wet your hands and gently spread a thin, even layer of rice over the seaweed wrapper. Re-wet your hands as needed. Spread the rice to the edges of the mat.
- 4. On the nearest L of the wrapper,** place a few matchsticks or slices of veggies and fruit horizontally across the rice. Make sure the ingredients reach both edges of the seaweed paper. Add a little cream cheese and shrimp or crab. Top with a few leaves of watercress.
- 5. Lift the bamboo mat with your thumbs,** while gently keeping the filling in place with your fingers. Fold the wrapper over the filling and continue rolling in a jelly roll style. When the edge of bamboo mat has almost been rolled under the sushi, pull out that edge and continue rolling.
- 6. Unroll the bamboo mat** and allow the sushi roll to sit for a few minutes before cutting. Repeat with the remaining ingredients to make more sushi rolls. Cut each roll into 8 equal pieces with a wet knife.

When we chop the veggie mix up into confetti, it looks fancy, but I can't really tell what is there, and then when it is wrapped inside rice paper, I can't even see it! "I'm involved with my local Dairy Council through a nutrition program at my school," says Reagan. "I knew I had to incorporate dairy to make them proud, so I made a list of all of my favorite foods to see what kind of recipe I could come up with. I talked with a local chef at the university in my town and he explained what the new "super foods" were and how important they are to our health. I then created a recipe that I thought would be great. I worked through trial and error until I finalized my recipe that is now delicious and includes my favorite and super foods."
